WHO IS MERALED ?

20+ Years of Expertise

Meraled Lighting, established in 2024, specializes in designing and manufacturing high-quality lighting solutions tailored for luxury stores, particularly jewelry stores. With over 20 years of industry experience, the team at Meraled crafts innovative and aesthetically pleasing lighting systems that elevate store design. Operating from a **1,000 m²** production facility in Istanbul, Meraled exports its products to global markets, including America, Europe, the Middle East, and Asia.

MISSION

Meraled, backed by over 20 years of experience and a dedicated lighting team, is committed to delivering high-standard lighting solutions that seamlessly blend innovation and quality. We develop aesthetic, efficient lighting systems tailored to our customers' needs and remain dedicated to sustainability and eco-friendliness by investing in cutting-edge industry technologies.

- Innovative, Quality-Oriented Solutions
- Customer-Centric Approach
- Vision for Sector Leadership
- Commitment to a Sustainable Future

VISION

Meraled aspires to become a globally recognized and preferred leader in the lighting industry. Our vision is to achieve excellence in both individual and commercial projects by offering products that seamlessly blend aesthetics and functionality. We are committed to continuously developing innovative and eco-friendly solutions. With the expertise of our professional team and a customer-centric approach, we will continue to strengthen our leadership in the sector.

TARGETS

At Meraled, we aspire to be a recognized and preferred **lighting brand** in the international market by 2025. Our primary objectives include developing global strategies, strengthening our presence in current markets, and capturing new market opportunities. We are dedicated to offering the best solutions for both individual and commercial projects, always placing customer satisfaction at the forefront. Our goal is to surpass customer expectations through customized lighting solutions and personalized services. In pursuit of these aims, Meraled will advance as a successful and sustainable leader in the lighting industry, both in Turkey and worldwide. We will enhance our influence in the sector by prioritizing quality, innovation, and customer satisfaction at every stage.

What is Flicker in LED Lights ?

LED lights can produce an invisible flicker caused by rapid fluctuations in brightness. While this flicker is typically not visible to the naked eye, it can lead to discomfort such as eye strain, headaches, and difficulty concentrating. In some cases, invisible flicker may become noticeable, particularly if you observe streaks in moving objects or vertical lines in photos, indicating that the light source may be flickering.

Meraled Flicker-Free Technology...

Meraled reduces flicker through Intelligent Dynamic Light Adjustment, ensuring a comfortable and consistent viewing experience. This advanced technology prevents high-speed LED flashes that can occur at low brightness levels, eliminating flicker and enhancing visual comfort.

The Effect of Bright Luminaires

Bright luminaires can cause glare, making the lighting less comfortable. Anti-glare LED lights offer a more pleasant and effective lighting experience. When the lens is positioned too close to the surface, the light becomes scattered throughout the room instead of being focused on the products, reducing the effectiveness of the lighting.

Anti-Glare Led Luminaires

The light source is positioned behind the luminaire, allowing for better focus on the products and ensuring the light illuminates

specific areas without scattering. This design provides comfortable lighting with minimal reflection in the store environment. An "Anti-Reflection" option is available as an additional feature across all our products. Contact us for more information on low-reflection lighting solutions.

Color Rendering Index (CRI)

Color Rendering Index (CRI) is critical for lighting in jewelry stores. High CRI lighting accurately displays the natural colors and sparkle of jewelry, highlights fine details and highlights the quality of products. This increases customer confidence, improves the shopping experience and supports sales.

Color Temperature

Color temperature measures the color of light in Kelvin (K). Lower temperatures (3000 K) produce a warm, yellowish light, while higher temperatures (5000-6500 K) emit a cool, bluish-white light.

Importance of Color Temperature for Jewelry Store Lighting:

Showcasing True Colors: The right color temperature helps accurately present the colors and brilliance of jewelry. Cool white light (around 5000K–6500K) mimics daylight, which enhances the sparkle of diamonds and brings out the true colors of gemstones.

**WHY CHOOSE
US ?**

Leading Designer, Manufacturer, and Installer of LED Lighting Solutions for Jewelers.

MERALED is a leading designer, manufacturer and installer of LED lighting solutions for jewelers in Turkey. Meraled is expanding globally into new industries and regions. By constantly prioritizing customer needs and offering customized solutions, it continues to lead the LED lighting market for jewelers as a pioneer and industry leader.

Detailed Consulting Solutions

MERALED offers in-depth consultancy services for lighting products, delivering expert guidance and customized solutions to optimize lighting designs and meet client requirements.

Long-lasting Guarantee

MERALED provides long-lasting warranties on its lighting products, ensuring durability and reliable performance for years to come.

Fast Shipping and Prompt Delivery Across the Globe

By offering fast shipping and fast delivery worldwide, MERALED ensures fast service and efficient delivery of lighting solutions to its customers worldwide.

Quick and On-Site Project Intervention

MERALED provides fast and on-site project interventions, providing instant solutions and flawless implementation for lighting projects. Focusing on efficiency and customer satisfaction, MERALED guarantees fast response times to meet project demands.

Over 20 Years of Professional Team Expertise in Our Services

MERALED leverages over 20 years of professional expertise within its team, delivering top-quality lighting solutions backed by extensive industry knowledge and experience. performance for years to come.
